

Fundamentals of AI for Federal Government

Presented to:
Veterans Experience Office

Two-Day Online Workshop:

June 1, 2023, 12PM - 4PM
June 7, 2023, 10AM - 2PM

Instructors

Jim Liew, Ph.D.

Associate Professor, The Johns Hopkins University

Avinash Sharma, M.A.

Chief Technology Officer, SoKat

Curriculum

By the end of this 1-day workshop, participants will be able to:

- Distinguish hype from reality regarding what AI can do to help agencies achieve their mission
- Possess both a technological and business understanding of the most cutting-edge research in, and real-world applications of, AI
- Understand how to use AI to solve every-day business problems
- Be aware of the ethical challenges posed by AI, including the profound impact of ChatGPT
